BEGINNER COURSE WORKBOOK

TAROT MYSTICISM ACADEMY

Hi! I'm Joe.

Thank you so much for connecting with my work. This course will get you started with tarot meanings without having to memorize or study keywords or any of that nonsense.

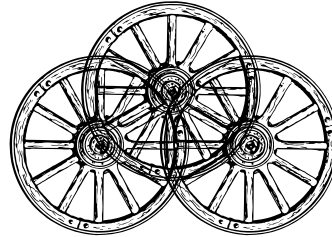

Enjoy!

What is Tarot?

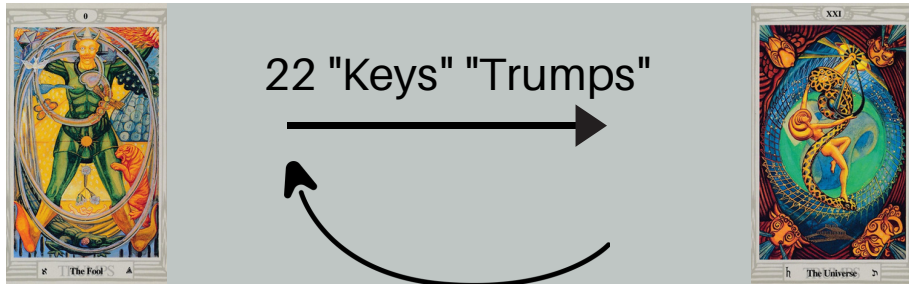

- 78 memes of consciousness
- A psycho-spiritual-historical amalgamation of symbols
- Probably not a spellbook from Ancient Egypt (but maybe . . .)
- Definitely a spiritual technology with alchemical, hermetic, kabbalistic, astrological, and magical/esoteric influences
- A method of divination, and spiritual unfoldment
- Definitely the gateway drug into the occult
- Which is itself, a gateway drug into mysticism . . .

Structure of the Tarot

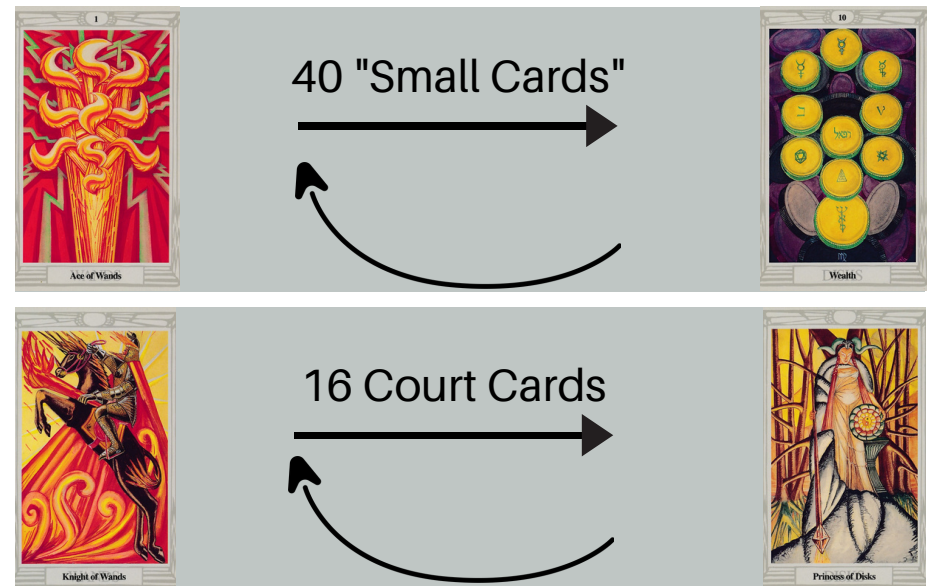

"The gunas revolve"
--Bhagavad Gita

Major Arcana:

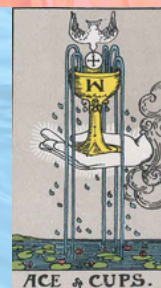

Minor Arcana (4 suits):

Wands (Fire): creativity (initiating), power, spirit, drive, will, work, passion, business, sexuality, purpose, the sun

Cups (Water): creativity (receptive), intuition, love, relationships, friendships, family, emotions, receiving, the moon

Swords (Air): mind, ego, intellect, society, conflict, symbols, language, thoughts, ideals, choices, all things which result from the hidden marriage of the previous two

Disks/Pentacles/Coins (Earth): matter, physicality, material, the body, money, health, the materialization of the above

ELEMENTS!

NUMBERED MINOR ARCANA

- The numbered minor arcana cards represent manifestations of the 4 elements through 10 numbers.

MAJOR ARCANA CARDS

- The majors represent major events, shifts, and larger themes in the questioner's life.
- They can represent changes and transformations.
- They always express some sort of movement of energy from one place to another (not just physical places).
- Each card is a threshold into a new possibility.
- The general shift of energy is given at the top.

Thanks for taking the my Beginner Course! You should know that tarot is a lifelong study. The 3 Paradigms

Tarot Mysticism Academy takes students through 3 paradigms of work:

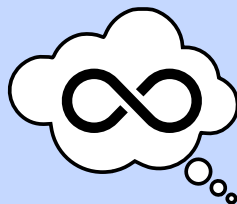

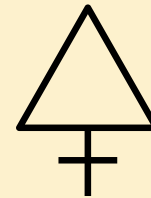

LEVEL 1: MECHANICAL - OUTER DUALITY

Students begin their journey by learning the tarot as one cohesive system. This includes elements, numerology, card meanings, practical techniques, and intuitive development. Additionally, students forge a deep connection with the 78 cards as they already exist within, enabling them to gain clear insights into their lives and provide accurate readings for others. This results in a confident and failsafe divinatory practice.

LEVEL 2: SUBTLE/CAUSAL - INNER DUALITY

At this state, students learn esoteric tarot knowledge, studying various mystical philosophies and how they are all connected, including Hermetic Qabalah, astrology, energy healing, meditation techniques, and more. This brings everything together into one connected psycho-spiritual technology, enabling students to perform more profound readings, experience transformative healing, and accelerate their spiritual growth. Here, tarot evolves from a simple divination tool into a comprehensive system of spiritual evolution.

LEVEL 3: MYSTICISM - NON DUALITY

In the final level, students integrate all previous knowledge to unlock the deepest layers of tarot as a map to spiritual illumination. This level transcends duality, guiding students to cultivate a direct, mystical experience of oneness. Tarot becomes a tool for recognizing their connection to everything, dissolving past conditioning, self-doubt, and fear into a state of peace, authenticity, and connection with the universe.
