HOW TO USE THIS WORKBOOK

The Tarot Card Meanings Workbook is intended as an interactive, personal resource to help you to unlock your inner Tarot reading potential and seek out your own intuitive wisdom.

The Workbook is essentially like a Tarot Journal, with lots of blank spaces for you to record your personal thoughts, insights, observations and notes about the Tarot cards. You may want to do this all in one go, devoting a specific amount of time to learn the Tarot cards. Or, you may build your Workbook gradually over time, be it months, years or even decades. You may also use this Workbook on your own or as part of a Tarot study group. The possibilities are endless!

The benefits of using your Workbook are enormous. Not only are you learning from texts and other resources throughout the course of your Tarot study and workbook writing, but you are also applying your own personal experience to your learning journey. Relating your own experience to the Tarot increases your ability to develop the breadth and depth of understanding the Tarot. A true understanding of the Tarot cards will not stem from simply reading numerous texts, rather it will stem from gut instincts and personal intuition.

GETTING STARTED

There really is no one 'right' way to getting started with your Workbook. You may want to start with the keywords, or you may want to launch straight into each Tarot card. You may want to do everything at once, or you may want to just come back to your workbook whenever the time feels right. You may also have your own methods by which you want to generate your insights.

Nonetheless, as you work through each section of the Workbook, you may find the following techniques may prove helpful to get you started.

TAROT KEYWORD REFERENCE CHARTS

Preparing your own Tarot Keyword Reference Charts helps you become familiar with each of the Tarot cards on a deeper level, and once you have created the cheatsheet, you then have a quick-reference card which you can easily refer to when you are reading Tarot. This is so much faster than having to flick through all of your favourite Tarot card meanings books and websites to find the right meaning.

To get started, choose a card from your Tarot deck to work with and begin to study it. What words or phrases come to mind? What images stand out? What is your general feeling from the card? If you are still very new to Tarot, read through a couple of different books or

websites and look for common words or themes in the card meaning interpretations. Start jotting down every thought, idea, word, phrase or sentence that comes to mind. At this stage, you want to be brainstorming, so any idea is a good idea!

Once you have exhausted your options, then review your list and select 3-4 keywords or phrases that collectively represent your ideas. Enter this into your Tarot cheatsheet. Continue to work through each Tarot card until you have built your very own Tarot cheatsheet.

You may also like to wait another week or two, just in case you have new ideas on what keywords to include. Once you are happy with the final product, print out your new Tarot cheatsheet, laminate it and keep it with your Tarot cards for a quick-reference tool.

MAJOR / MINOR ARCANA OVERVIEWS

Creating your own summaries for the Major and Minor Arcanas will help you to identify key patterns, themes and 'stories' in your readings. It will also help you to develop an even deeper understanding of the individual cards as you begin to see those patterns emerge.

To get started, consider each group of cards (i.e. the Major Arcana, Suit of Wands, Suit of Swords, etc.):

- ▷ **What are the general themes of the Suit / Arcana?**
- ▷ **What keywords would you associate with the Suit / Arcana?**
- ▷ **What are the positive and negative aspects?**
- ▷ **What are the common symbols, images, colours, figures, etc. in the Suit / Arcana?**
- ▷ **What is the significance in a reading?**
- ▷ **What else comes to mind?**

TAROT CARD QUOTES

Exploring and reflecting upon common quotes can be a great way to bring the key messages of your Tarot cards alive! This is more of a fun exercise rather than an integral part of your Tarot studies.

To get started, I recommend working with your keywords and even key phrases associated with each Tarot card. Then, head on over to a quotation website such as www.brainyquote.com and start searching! Or consult your favourite inspirational quotes book.

Alternatively, you may choose to let the quotes come to you. As you read various books, keep a note of inspirational quotes that add meaning to your Tarot cards, and jot them down in your Workbook over time.

TAROT CARD DESCRIPTION

The Tarot card description is your opportunity to explore the symbolism and imagery in a specific card. Furthermore, the Tarot card will often depict a 'story' that then informs the general meaning for the card. So, it is important to pay attention to these visual elements.

To get started, study a specific Tarot card for a few minutes, then consider:

- ▷ **What 'story' is being told? What is happening in the card?**
- ▷ **Is there a person in the card? What does their expression tell you? What direction are they facing? What are they doing?**
- ▷ **What symbols are used in the card, and what do these symbols mean?**
- ▷ **What colours are used in the card, and what do these colours signify?**

UPRIGHT TAROT CARD MEANING

This is really the 'core' of your Tarot study – understanding and interpreting the upright Tarot card meanings. When you write about the Tarot card meanings, there are a number of ways you can do it. You may like to draw one card each morning, reflect on it throughout the day, and write an entry on it during the evening. Or, you may wish to look at each card in order. For example, begin with the first card of the Major Arcana and move through until you reach the end. It is completely up to you.

To get started, look at your selected Tarot card and consider the following key aspects:

- ▷ **What is your first impression of the card. How do you feel when you see the card? Which images stand out to you?**
- ▷ **What is happening in the card? What is the story? And what is the moral of the story?**
- ▷ **What key messages do you relate with this card? What lesson is the card sharing with you?**
- ▷ **Can you personally relate to the message of this card? When have you experienced its energy?**
- ▷ **What do you know about this card? What have you read in other books?**
- ▷ **When has this card appeared in a Tarot reading before? What did it mean?**

Jot down your initial thoughts. Then, throughout the day / week / month / year, spend some time reflecting on how the card relates to your personal experiences over that period of time. For example, you may be studying the Six of Pentacles. Perhaps you can donate money to charity or help a needy friend. Write down how this made you feel afterwards and if you noticed anything you would not normally associate with the activity.

Use your Tarot readings, too, to explore the meaning of the card. What significance does the card have in a particular reading, or a series of readings? For example, I found that the Three of Cups reversed nearly always came up in readings where there was an affair or a third party involved in a relationship. I now attribute that specific meaning to the card.

The Workbook also includes spAce for context-specific meanings, such as in a relationship reading or a career reading. Here are some ideas to get you started:

Career, Work and Finances:

- ▷ **What does the card mean if you are searching for work? What does it tell you about your current work situation?**
- ▷ **What career paths may be associated with the card?**
- ▷ **What does the card tell you about your financial situation?**

Personality Types:

- ▷ **Imagine you 'are' the card. What does it feel like to be this card?**
- ▷ **Write a 1-2 paragraph 'bio' of the card, or even write a letter to the character in the card.**
- ▷ **What would it be like to meet this person/card?**
- ▷ **What are the positive and negative qualities?**

Relationships and Love:

- ▷ **What does the card mean if you are searching for love? In a relationship? Trying to fix a relationship?**
- ▷ **What does the card tell you about other types of relationships in your life (e.g. friends, family, colleagues, etc.)**

Spirituality:

- ▷ **What is the deeper spiritual message or lesson of the card?**
- ▷ **What does this card tell you about your own spiritual journey?**

Wellbeing and Health:

- ▷ **What does the card tell you about your general health and well-being? What might be some specific health issues associated with the card? (Remember, though, that you are most likely not a health professional, so always ensure that you do not give specific health advice, unless qualified).**

REVERSED TAROT CARD MEANING

Since I began reading the Tarot professionally, I have always used reversed Tarot cards. Tarot card reversals provide you with the opportunity to expand and deepen the insight drawn from your readings. Take 78 Tarot cards, reverse a random selection through your shuffling and suddenly you have doubled your Tarot deck to 156 different messages that you can possibly draw from. It is easy to see how reversed cards can add a whole new layer to your Tarot reading.

Reversed cards can be interpreted in many different ways and this is what makes their usage in a reading even more interesting. It moves the reading into a multidimensional space where there is light and shade, simplicities and complexities, highs and lows. It allows you, as the reader, to offer your client a balanced perspective that is targeted towards their specific situation, which will in turn help them to make the right decisions about their path forward.

To get started, here are a number of different ways you can interpret the reversed Tarot cards:

- ▷ **Energy that is expressed within yourself or privately (compared to upright cards which represent energy that is expressed outwardly and publicly)**
- ▷ **Energy that is blocked**

- ▷ **Too much or too little energy**
- ▷ **The opposite of the upright card**
- ▷ **Delays**
- ▷ **Something that remains in your unconscious awareness**

CARD COMBINATIONS

Learning how to interpret Tarot card combinations gives you a headstart for telling the story in a Tarot reading and making meaningful connections between the cards. This is what reading Tarot is all about!

To get started, look for the following connections between two cards:

- ▷ **Common themes in what the card means**
- ▷ **Common symbols**
- ▷ **The numbers of the cards**
- ▷ **Major Arcana cards vs. Minor Arcana cards**
